Prof. Pac-Man Script

Prof. (fussing and calculating) "No, no, no, this just won't do. Oh dear, no, this won't do at all...."

Pac: "Professor?"

Prof.: "According to my calculations, there is less time than I thought.
Unless we find the missing Magical Power Pills soon, Pac-World will cease to exist.
We have to find out where our old foes the ghosts have hidden them.... And fast"

Pac: "Any ideas?"

Prof.: "I already know they used a prototype of my time machine to hide them in the past, and I have a good idea of the time zones... what I don't know is the exact location of the Pills.

It's down to you 'Pac-Man! You must travel back through history to locate and retrieve those Magical Pills".

Pac: " Leave it to me, Professor"

Prof.: "Splendid!
Use the active Time-Portals to reach the Pills, and I will work on the co-ordinates for the other zones... This is not going to be easy, you know how cunning those ghosts are, so be careful and good luck!"
